

## Use of Club Changing Rooms

*Issued by the General Committee 4 Sept. 2020*

The changing rooms will partially re-open from Saturday 6<sup>th</sup> September 2020. The Club is taking all reasonable steps to minimise the risk of infection transmission based on the Government's guidelines for sports facilities and the RYA's specific advice. However, it remains the position that members must understand and acknowledge the risk from pathogens inherent in their use of the Club's facilities.

**In order to make this work and to avoid having to close the changing rooms again, please take responsibility and abide by the following advice :**

- Please continue to arrive at the Club in sailing kit or change in the Club grounds as far as possible. If you can go home without using the changing rooms as well – GREAT!
- Maximum capacity in changing areas **and** showers is :  
**8 females                      10 males**
- If you find they are full then please leave immediately and wait outside, well away from the entrance area / ramp. Or try again later.
- In addition people not getting changed may access the toilets.
- Please keep to the marked walkways when entering and leaving.
- Please maintain **2m distancing** from other people changing.
- Please be as quick as possible - no faffing and no chatting!
- Consider removing buoyancy and waterproofs outside – it reduces time in the changing rooms and makes for less mess and easier cleaning.
- Please DO NOT leave any kit bags in the changing rooms – they must be returned to your vehicles when you have changed.
- Please give priority to people coming off the water.
- Please leave the area you use clean – wipes and disinfectant are provided.
- Parents are responsible for monitoring their children's use of the facilities.

**Above all please be responsible, please be patient and please act with consideration for others.**
